PROFESSIONAL SUMMARY

Solutions Marketing and Sales Enablement leader with 25+ years of experience across enterprise software, ERP ecosystems, and technical program management. Specializes in go-to-market strategy, product positioning, messaging, competitive intelligence, and sales training for SAP, Oracle, and Microsoft-integrated solutions. Proven ability to translate complex technical capabilities into clear, differentiated value narratives, support product launches, and equip global sales teams with the tools, content, and guidance needed to accelerate deal cycles and drive pipeline growth. Extensive background leading cross-functional teams, managing large-scale technical programs, and delivering customer-facing enablement across Fortune 500 and high-growth SaaS environments.

CORE COMPETENCIES

Go-to-Market Strategy & Execution • Solutions Marketing • Sales Enablement & Training • Product Positioning & Messaging • Competitive Intelligence (Crayon) • Product Launch Management • ERP & Cloud Migration Strategy • Cross-Functional Leadership • Campaign Development • Technical-to-Business Communication • Stakeholder & C-Level Engagement • SaaS & Enterprise Software • Partner & ISV Alliance Management • Thought Leadership & Content Strategy • Customer Success & Solution Selling • Agile Program Management

PROFESSIONAL EXPERIENCE

Senior Solutions Marketing Manager, ERP Ecosystems, Vertex Inc. | 2023 – Present

- Lead global solutions marketing for SAP-integrated tax technology, owning GTM strategy, sales enablement, competitive positioning, and product launch execution.
- Develop SAP S/4HANA migration campaign strategy, including positioning and technical validation for Clean Core, BTP, and legacy replacement initiatives.
- Build cross-sell and upsell campaigns across PLUS Tools, TaxPulse, Ariba CIM, Accelerator+, and Microsoft Tax Calculation Service to increase attach rates and expansion revenue.
- Provide real-time sales support for SAP, Oracle, and Microsoft opportunities, delivering product roadmaps and competitive clarity that accelerates deal velocity.
- Manage competitive intelligence via Crayon, producing battlecards and differentiation content against SAP native and third-party solutions.
- Own SAP-specific global sales deck and ensure consistent solution storytelling across the sales organization.
- Deliver sales training programs, including Market Momentum sessions and diagnostic selling workshops, to increase seller confidence and adoption.
- Led product marketing readiness for the TaxPulse launch, including ICP development, positioning, enablement materials, and GTM execution.
- Produce SAP roadmap content for partner webinars and CIM events, strengthening partner alignment and credibility.
- Co-authored an ERP modernization white paper with Harvard Business Review Analytic Services.
- Author and review SAP GTM announcements, product briefs, and enablement assets to ensure messaging accuracy.

Technical Product Marketing Manager, Vertex Inc. | 2022 – 2023

- Owned product launches and enabled cross-functional teams across Vertex's tax technology portfolio.
- Developed rapid-turnaround sales collateral, product briefs, and technical content for time-critical launches and industry events.
- Coordinated integrated marketing initiatives and solution campaigns across Microsoft, Oracle, and SAP ecosystems.
- Partnered with regional sales executives to identify barriers and implement improvements that shorten sales cycles.

President & Senior Consultant, Fountainhead Solutions | 2014 – 2022

- Led an independent consulting firm delivering IT strategy, eCommerce integration, KPI/GAP analysis, and M&A advisory.
- Served as senior project manager for the development and launch of the Fountainhead SaaS application.
- Invented and patented the Intelligent E-commerce Product Viability, Evaluation, and Listing Software System (U.S. Patent #62926400).

Senior Technical Program Manager, Global Presales, Hewlett Packard | 2012 – 2015

- Managed 500+ customer projects with a 100% success rate across SaaS, cloud migration, Big Data/Analytics, ERP, virtualization, and high-availability server solutions.
- Provided hands-on technical expertise and executive-level support for 100+ global customer projects.
- Led global data center operations and cross-functional teams delivering new products, sales training, demos, and proof-of-concept engagements.
- Designed and delivered solution training for ERP, cloud infrastructure, and data management systems.

Senior Technical Program Manager, Storage Solutions, Hewlett-Packard | 2009 – 2012

- Managed worldwide storage, ERP, and database engineering projects spanning 50+ major product releases.
- Developed global training programs, customer success stories, system sizing tools, reference architectures, benchmarks, and technical whitepapers.
- Created demand-generation content, competitive positioning materials, and solution guides supporting partner-led revenue.

Senior Technical Program Manager, Enterprise Systems, Hewlett-Packard | 2000 – 2009

- Managed IT infrastructure and project operations across multiple Bay Area engineering centers supporting PeopleSoft, JD Edwards, Siebel, Oracle, and SAP teams.
- Founded the HP Database Technology Solution Center in Silicon Valley.
- Directed engineering partnerships with 50+ ISVs, co-developing joint solution architectures and technical content.
- Delivered sales training, demos, and competitive benchmarks for Fortune 500 prospects.
- Built and maintained an enterprise demonstration ecosystem featuring live demos and customer success stories.
- Cultivated C-level relationships to support high-value deals and long-term customer retention.

Strategic ISV Alliance Program Manager, Compaq Computers | 2000 – 2002

- Established and maintained strategic engineering partnerships with 60+ ISVs, expanding solution ecosystems and revenue channels.
- Developed joint GTM programs, co-marketing materials, and technical solution guides supporting field sales teams.
